

Assembly Instructions

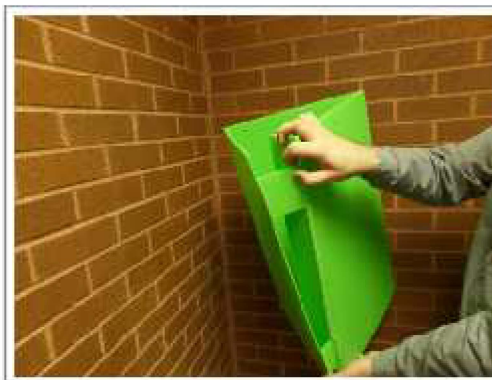

Step 1: Remove trap from the packing box. Traps are packaged in pairs.

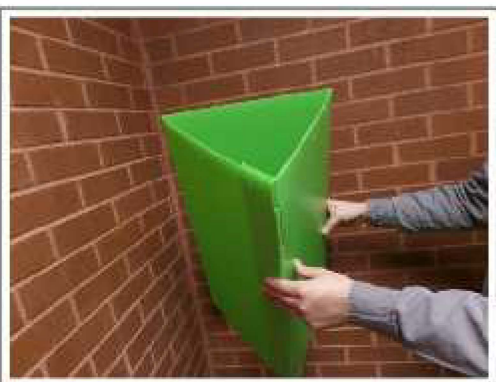

Step 2: Peel traps apart. Traps are held together with Pestick™.

Step 3: Fold trap into a prism (with sticky side out and line up tabs with tab slots).

Step 4: Insert tabs into the corresponding tab slots.

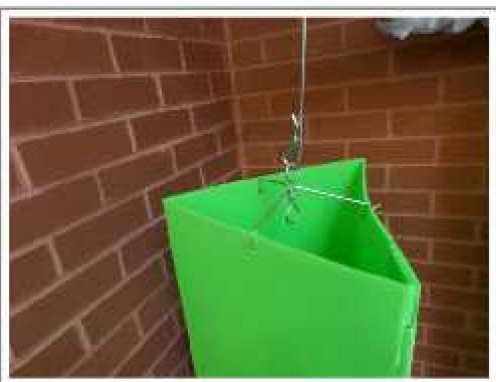

Step 5: Insert zip ties into the top and bottom of the tab panel. Secure ties.

Step 6: Attach the wire trap spreader to the wire hanger.

Step 7: Attach the trap spreader to the three small holes located at the top of the trap, in the center of each panel.

Step 8: Pierce the (3Z)-lactone septa with the safety pin. Pierce the (3Z)-hexenol lure with the second safety pin. DO NOT pierce the pouch below sealed line. Attach both lures to the loop below the wire spreader.
