

UNITRAP

ASSEMBLY AND USE INSTRUCTIONS

Reusable trap for use in monitoring a wide range of flying insects

Components :

Cap (A)

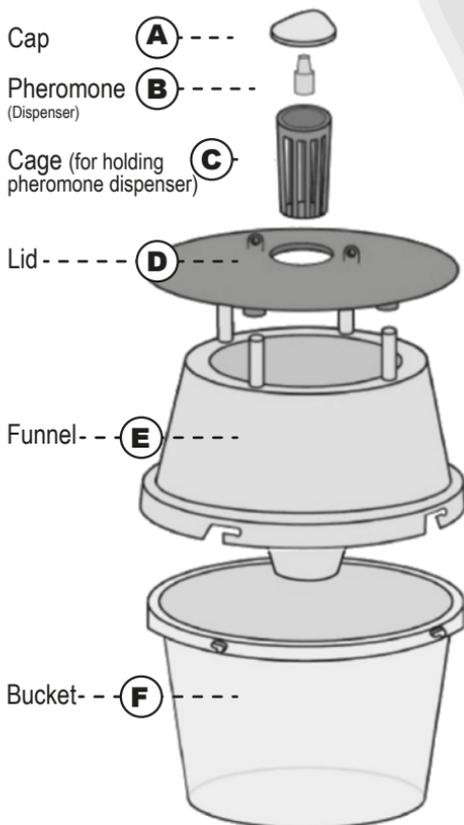

Pheromone Dispenser (B)

Cage (for holding
pheromone dispenser) (C)

Lid (D)

Funnel (E)

Bucket (F)

Trap Assembly

- 1 Place the pheromone-infused rubber septa inside the cage and close with cap.
- 2 Place this closed cage in the hole at the centre of the trap lid.
- 3 Place the trap lid onto the funnel, making sure to push the caps on the underside of the trap lid onto the spokes protruding from the top of the funnel.
- 4 Push the funnel onto the bucket and twist clockwise to seal the container.
- 5 If desired, place 1 insecticide strip (sold separately) inside the bucket.
- 6 Check traps on a regular basis, at least twice a week.
- 7 We recommend replacing the pheromone dispensers every 4 weeks to achieve optimum results.

NOTE TO USER:

To prolong storage life, refrigerate or freeze unused pheromone lures in their original foil pouch. To avoid contamination, use tweezers or rubber gloves when handling lures.
